## EDUCATION

### Guru Tegh Bahadur Institute of Technology

Delhi

Bachelor's in Computer Science and Engineering - **8.2 CGPA**

2022 – 2026

## WORK EXPERIENCE

### Frontend Developer Intern

October 2024 – December 2024

*DevNBrand*

- Collaborated with a team to develop scalable web applications, enhancing infrastructure performance.
- Optimized user interfaces and improved compatibility across platforms using React and TailwindCSS.
- Designed innovative solutions to challenging front-end development problems.

### Web Designer and Developer

September 2024 – December 2024

*PayME Fintech Solutions*

- Streamlined application performance by designing creative solutions to backend integration challenges.
- Developed web services ensuring seamless user interaction and scalability.

## PROJECTS

### Embrace Spectrum - for Neuro Diverse | *React, GCP, MongoDB, Nodejs, Express*

LINK

- AI-powered platform supporting neurodiverse users in emotional well-being, communication, and growth.
- Integrated Google Technologies to enable real-time AI interactions and emotion-aware document analysis.
- Engineered accessible, sensory-friendly UI with adaptive onboarding for personalized user experiences.

### Money Mitra | *React, Node, Express, MongoDB, NVIDIA AI*

LINK

- Developed an AI-driven platform for personal financial management, applying logic and data handling techniques.
- Incorporated AI/ML technologies to enhance user insights and automate financial recommendations.
- Designed secure and scalable backend systems, focusing on real-time data access and optimized storage.

### Form Builder | *React Remix, Tailwind CSS, LocalStorage*

LINK

- Built a dynamic, no-code form creation platform with drag-and-drop functionality and real-time preview.
- Enabled form sharing, response tracking, CSV export, and offline capabilities using browser-based local storage.
- Accessible and responsive UI with dark mode, template support, and adaptive preview for various screen sizes.

## TECHNICAL SKILLS

**Languages:** Java, Python, C/C++, SQL, JavaScript, TypeScript, HTML/CSS

**Frameworks:** React, Node.js, Nextjs, React Remix

**Concepts:** Data Structures, Algorithms, Object-Oriented Programming, Operating Systems, Software Engineering

**Developer Tools:** Git, Google Cloud Platform, Firebase, VS Code

## ACHIEVEMENTS

- Semi-Finalist** in EY Techathon 5.0, ranking among the top participants from a pool of **1,800+** participants.
- First-runner up** at North India's largest hackathon, Vihaan007, with **1,300+** participants.
- Selected in the **Top 105** teams out of **3,700+** submissions and **64,000+** registrations in the **Google Developer Group Solution Challenge 2025**.
- Recipient of the **Outstanding Student Volunteer Award** from IEEE Delhi Section.

## POSITIONS OF RESPONSIBILITY

### HACKGTBIT LEAD

February 2024 – October 2024

*IEEE GTBIT SB*

- Led a team of **15+** developers, improving development workflows by **25%**.
- Helped Organising **5+** events, engaging over **300+** students.

### GENERAL SECRETARY

November 2023 – February 2025

*SWAAS*

- Directed teams of **10+** members to design and develop **4+** innovative both web and socialmedia platform designs.
- Promoted collaborative team efforts, contributing to the successful execution of **7+** projects and events.
