EDUCATION

Guru Tegh Bahadur Institute of Technology
B.Tech in Computer Science and Engineering – 8.8 CGPA

Delhi
2022 – 2026

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, C/C++, SQL
Frameworks & Libraries: React, Next.js, React Remix, Node.js, Express, Tailwind CSS
Web Services & APIs: REST APIs, WebSockets, Web Hooks, Firebase
Tools & Platforms: AWS, Google Cloud Platform, Git, Figma, VSCode
Core Concepts: Reusable Component Architecture, UI/UX Design, System Design, Performance Optimization, Secure UI Development, Data Structures & Algorithms

WORK EXPERIENCE

Full Stack Developer Intern July 2025 – March 2026
NEECOP Consultants PVT Ltd Delhi (Hybrid)

- Took end to end ownership of key UI modules for a SaaS platform, translating wireframes into **high quality, production ready React components** with strong TypeScript typing throughout.
- Built **reusable component libraries** and scalable front-end architecture to accelerate feature delivery and ensure UI consistency across the platform.
- Collaborated cross functionally with backend and data teams on **REST API design and integration**, ensuring seamless, performant data flow between frontend and backend services.

Software Engineering Intern October 2025 – March 2026
Encrobytes Technologies Faridabad (In-Office)

- Engineered **high performance UI features** for an Enterprise Supply Chain system, building **real-time dashboards** handling **10,000+ orders** under production load with optimized render cycles.
- Owned and built **role based UI modules** for **9+ operational user roles**, applying secure UI patterns and delivering scalable, maintainable TypeScript front-end code.
- Refactored legacy front end codebases across multiple client projects, resolving critical performance bottlenecks and improving long term maintainability.

PROJECTS

Prashan (AI SaaS Product) | *React, Node.js, Express, REST APIs, LaTeX Pipeline* [LINK](#)

- Sole founder and engineer of an AI question paper generator for Indian school teachers (CBSE, ICSE, State Board); built and shipped entirely solo from design to production.
- Designed **high performance, configurable UI** allowing teachers to set class, subject, chapters, and marks distribution; system generates board aligned papers via a **LaTeX formatting pipeline** and exports print-ready PDFs and Word files.
- Achieved **15+ organic waitlist signups** pre-launch; validated through direct conversations with teachers at in-person events.

Embrace Spectrum (AI-Native Application) | *React, GCP, MongoDB, Node.js, Express, REST APIs* [LINK](#)

- Built an **accessible, adaptive UI** on Google Cloud with **sentiment aware document parsing**, integrating real time REST API backends to serve neurodiverse users reliably.
- Designed and implemented **reusable, performance optimized React components** ensuring high scalability from proof of concept to production deployment.
- Verified technical feasibility of UX designs end to end, bridging frontend to backend to meet strict accessibility and performance requirements.

Enterprise Supply Chain & Warranty System | *React, Node.js, Express, MongoDB, REST APIs* [LINK](#)

- Owned **key UI modules** for a B2B enterprise platform, translating wireframes into high quality, transactional interfaces handling bulk operations on **10,000+ records**.
- Implemented **real time warranty tracking dashboards** with dynamic, data driven UIs optimized for edge case user behaviors across 9+ operational roles.

ACHIEVEMENTS

- Semi Finalist at **EY Techathon 5.0**: Designed scalable real world financial education solutions, ranking in the top 1,800+ participants nationwide.
- Top 105 teams in **GDG Solution Challenge 2025**: Selected from 3,700+ submissions for building impactful AI driven UN SDG solutions.
- First Runner-Up at **Vihaan007**: North India's largest hackathon; recognized for rapid prototyping and engineering impact.
- Received **Outstanding Student Volunteer Award** from IEEE Delhi Section.

POSITIONS OF RESPONSIBILITY

HackGTBIT Lead

Feb 2024 – Oct 2024

IEEE GTBIT SB

Delhi

- Mentored a team of **15+ developers**, improving workflow resilience and internal collaboration by 25%.
- Organized technical events engaging 300+ students, fostering exposure to distributed systems and AI technologies.

General Secretary

Nov 2023 – Feb 2025

SWAAS

Delhi

- Directed a team of 10+ through creative problem solving and cross functional collaboration to deliver innovation-driven outcomes.
- Managed successful execution of 7+ complex projects, focusing on system reliability and team output.
